AI Server Prices

Overview

Prices range from $150,000 to $3 million depending on GPU type, count, and configuration. This guide breaks down what you'll actually pay and what you get at each tier. They don't include rack infrastructure . If you're planning an AI deployment and your calculations focus primarily on hardware acquisition costs, you're heading toward a financial shock. In 2026, AI server hosting spans a wide range from affordable cloud inference. AI infrastructure budgeting requires precise assessment of GPU performance, memory hierarchy, storage throughput, and network latency. Daily updated pricing for GPU servers, workstations, and accelerators from $109 to $500k+. Deploy NVIDIA B200, H100, A100, or GH200 instances in minutes with self-serve, first-come.
