# Fiberglass Hard Tail Automatic Color Changing Float

## Overview

1)Get rid of the original packing, for example, if you buy a pair of shoes, you could get rid of the shoebox which will save a lot for volumetric weight. 2)The shipping cost is normally charged by every 0.5KG.

## Key Takeaways

A fiberglass hard tail float with automatic color-changing LED is a high-sensitivity fishing float designed for both day and night use, alerting anglers to bites instantly.

### Key Features

Material and Durability: These floats are crafted from durable fiberglass or composite materials, ensuring they withstand regular use and resist damage from water and handling.

### Color-

### Changing LE

D: The float features an automatic color-changing LED, which provides a clear visual cue when a fish bites. This is especially useful for night fishing, allowing anglers to detect even subtle movements. High Sensitivity: Equipped with high-sensitivity electronics, the float reacts quickly to the slightest tug on the line, reducing missed catches.

Size Options: Typical lengths range from 44 to 60 cm (17.3–23.6 inches), suitable for various fishing conditions and target species. Dual Use: These floats are designed for both day and night fishing, making them versatile for different lighting conditions. Package: Most products are sold individually, including 1 LED fiberglass float with the electronic buoy system integrated.

### Practical Benefits

Immediate Bite Detection: The color-changing feature provides instant visual feedback, improving reaction time.

### Durable and Long-

Lasting: Fiberglass construction ensures longevity and resistance to wear. Enhanced Night Fishing: LED illumination allows for effective fishing in low-light conditions. Versatile Application: Suitable for freshwater species like crucian carp and other common targets.

### Purchasing Options

These floats are available on platforms like Taobao, AliExpress, eBay, and Shopee, often with free shipping and international delivery options. Prices and designs may vary, including features like extended hard tails or laser-enhanced visibility. Overall, a fiberglass hard tail automatic color-changing float is an excellent choice for anglers seeking high sensitivity, durability, and night fishing capability.
