How Much Do Fiber Patch Cords Cost?

OEM & Bulk Pricing BreakdownUnderstand fiber patch cord pricing from a B2B perspective. Learn how OEM production, volum.

Key Takeaways

Fiber optic patch cord prices typically range from $5 to $50 per unit, depending on fiber type, connector, length, and jacket material.

Price Ranges and Factors

The cost of a fiber optic patch cord varies widely based on several factors: Fiber Type: Single-mode (OS1/OS2) cords are generally more expensive than multimode (OM3/OM4/OM5) due to higher precision requirements and lower attenuation. Connector Type: LC, SC, ST, MPO, and MTP connectors influence cost. MPO/MTP connectors, especially for 12F/24F cores, require precise alignment and polishing, increasing price.

Length: Prices increase linearly with length, but the type of outer jacket (PVC, LSZH, armored) can significantly affect cost. Jacket Material: LSZH (Low Smoke Zero Halogen) and armored cables are more expensive than standard PVC due to safety and durability features. Testing and Certification: Cords with IL/RL test reports, 3D interferometer measurements, and end-face inspection results command higher prices.

Typical Costs

Short, standard LC-LC multimode patch cord (1–3 meters): $5–$15 per unit. Single-mode LC-LC patch cord (3 meters): $10–$25 per unit.

Armored or LSZ

H cords: $20–$50 per unit depending on length and specifications.

Bulk or OE

M orders: Setup costs for custom logos or labels may range $30–$100, but per-unit cost decreases significantly with volume. Regional ConsiderationsU. S.: UL-listed or ETL-verified cords are common; strict plenum or riser fire ratings may increase cost.

Europe: LSZH jackets are standard; armored cords are used for underfloor installations. Middle East: Flame-retardant jackets and PE-sheathed armored cords are preferred for indoor/outdoor applications.

Buying Tips

Evaluate total cost of ownership, not just unit price, considering durability, testing, and supplier reliability. Request samples and technical datasheets before bulk orders to ensure performance. Choose the appropriate fiber type and jacket based on your network environment and safety requirements.

Online retailers like Amazon, UnitekFiber, and FS.com offer a wide range of patch cords with varying specifications and prices, making it easier to compare options.
