Hisrnse optical module

Overview

The market offers a diverse range of Hisense-branded and compatible optical modules, catering from legacy 155M networks to modern 10G PON systems. Key differentiators include supplier reputation, order flexibility, and specific use cases like FTTH OLT/ONU or wireless fronthaul. As one of the world's leading optical communication device suppliers, Hisense Broadband Multimedia Technologies is putting the spotlight on its core optical communication technologies and ability to integrate industry segments. 2Gbs-B+ throughput up to 20km over single-mode fiber (SMF) at a wavelength of 1310nmTx/1490nmRx using an SC connector. This easy to install, hot swappable transceiver has been programmed, u. has built a comprehensive product portfolio that spans the entire value chain of the optical-communication industry, generating strong synergies across its product lines. (commonly referred to as Hisense Broadband).

How Hisense has the advantage in optical module technology

As one of the world''s leading optical communication device suppliers, Hisense Broadband Multimedia Technologies is putting the spotlight on its core optical communication technologies and ability to

Genuine Hisense Transceiver Modules

Buy Genuine Hisense Transceiver Modules from GenuineTransceivers with best price and fast worldwide shipping.

© 2026 PROMETHEAS OPTICAL - All rights reserved

LIGENT Inc.

Actively advancing optical modules that incorporate the latest opto-electronic conversion technologies to meet the demands of AI-computing networks.

Hisense Broadband Optical Modules 2026

Find top-rated Hisense broadband optical modules with 80km range, SFP+ 10G, and DDM support. Compare verified suppliers, MOQ < 5, and real-time pricing. Click to explore 45,000+

Hisense Broadband Compatible Transceivers

Browse Hisense Broadband compatible optical transceivers. 100% compatible, tested and certified. Fast shipping, competitive pricing.

Hisense optical modules and chips | Weyland

Hisense Broadband focuses on the research, development, and manufacturing of optical communication components and systems, including optical transceivers and high-speed optical

Hisense LTF2304-BC+ Compatible 10G SFP+ Module

Our Hisense Broadband LTF2304-BC+ compatible transceiver uses a high-quality DFB Laser transmitter operating at 1270 nm nominal wavelength and a 1330 nm

SFP Module GPON OLT Class C++ Hisense | BT-PON

Features: ♦ Dual Wavelength Bidirectional Transceiver ♦ 2488Mb/s Downstream ♦ 1244Mb/s Upstream ♦ 1310nm APD/TIA Burst Mode Receiver ♦ 1490nm CW

How Hisense has the advantage in optical module technology

How Hisense is setting speed records with optical module technology The era of 400G has arrived, and the optical communication industry is focusing on next-level speed. After the peak of the COVID

Hisense LTF2304-BC+ Compatible 10G SFP+ Module

Hisense Broadband LTF2304-BC+ Compatible 10G SFP+ Transceiver, 40KM over SMF. Explore our portfolio of Hisense Broadband compatibles - covering datasheet.

Genuine Hisense LTF1303-BH+

It won''t have any compatibility problem with your Hisense devices. And the Genuine Hisense LTF1303-BH+ 10G 1310nm 1.4km SM SFP+ Optical Module is factory

Genuine Hisense LTF7219-BH+

© 2026 PROMETHEAS OPTICAL - All rights reserved

The Hisense LTF7219-BH+ is a 10Gb/s EPON ONU duplex optical transceiver designed for low cost point-to-multipoint (P2MP) Fiber to the Home (FTTH),

Over 20 Million 400G & 800G Datacom Optical Module

BOSTON (January 7, 2025) – Total shipments of leading-edge datacom optical modules are projected to tally over $9 billion for 2024, according to the latest

Hisense LTE3680P-BC+

Hisense LTE3680P-BC+ CLASS C+ 2488/1244 Mb/s SFP GPON OLT Transceiver The LTE3680P is a low cost point-to-multipoint (P2MP) Fiber to the Home, Business or Curb (FTTX) GPON OLT

Hisense Broadband unveils 800G QSFP-DD BiDi SR4.2

The optical module conforms to 100-Gbps Ethernet multimode fiber specifications to support 100 m of multimode fiber reach with a dual-wavelength

LTF7215-BC+ 10G SFP+ Transceiver Hisense 1310nm

The Hisense LTF7215-BC+ SFP+ Optical Module is a single-mode optical transceiver designed for GPON-OLT Class B+ applications. This SFP+ optical

Products

At Hisense Photonics, we deliver high-performance photonic components, including DFB lasers, EMLs, TL_DBRs, and High-Power DFBs. Designed for precision

About Us

Hisense Photonics manufactures key innovative in-house technologies, which ensure our position as an optoelectronics industry leader. Our proven modular technology platforms, supported by a library of
