Swiss cable tray models

Overview

Ducts, Cable Trays & Trunking | Distrelec SwitzerlandDistrelec Switzerland stocks a wide range of Ducts, Cable Trays & Trunking. Next Day Delivery Availabl.

Key Takeaways

Swiss cable tray models are available in ladder, perforated, and solid-bottom types, with detailed technical specifications and CAD/BIM resources accessible from multiple suppliers.

Overview of Cable Tray Types

Swiss cable trays are designed to support and organize electrical cables in industrial and commercial installations. The main types include: Ladder Cable Trays: Feature two side rails with rungs at the bottom, providing maximum ventilation for heat-producing cables such as power lines. Perforated Cable Trays: Made from roll-formed steel with perforations on both sides, offering protection and ventilation for sensitive control or telecom wiring.

Solid-

Bottom Cable Trays (Raceways): Enclosed metal sheets that protect cables from heat, humidity, corrosion, and physical damage.

Key Suppliers and Resources

Distrelec Switzerland Offers a wide range of ducts, cable trays, and trunking with next-day delivery and expert advice. Their catalog includes various materials and finishes suitable for Swiss standards.

AB

© 2026 PROMETHEAS OPTICAL - All rights reserved

B Cable Management Solutions Provides over 4,000 CAD drawings and BIM objects for T&B® fittings, PMA® Cable Protection, Kindort®, Red•Dot®, Superstrut®, and Steel City® products. Drawings are available in popular CAD formats and can be imported into Revit® models for engineering projects.

HPK Gmb

H Supplies brochures, data sheets, and technical drawings (STP format) for all cable trays, including stainless steel options and fire-resistance specifications according to DIN 4102.

Becconduits PD

F Catalog Offers a downloadable PDF catalog detailing ladder, perforated, and solid-bottom cable trays, including pre-galvanized, painted, hot-dip galvanized, and powder-coated finishes. Legrand Swifts Technical Guide Provides a technical guide for Swifts cable trays, including model specifications and installation instructions.

Additional Considerations

Material and Finish: Options include stainless steel, pre-galvanized steel, powder-coated, and hot-dip galvanized finishes to meet environmental and fire-safety requirements. Customization: Many suppliers offer custom lengths, widths, and accessories to accommodate complex routing and high-density cable installations. Standards Compliance: Swiss cable trays typically conform to international standards such as ASTM A123, ISO 1461, NEMA VE 1-2017, and UL certifications.

For engineers and designers, these resources provide complete technical specifications, CAD/BIM models, and installation guidance, enabling precise planning and integration into industrial or commercial projects.

Product Catalogue Cable Management Solutions

Delivering engineered solutions in cable management ABB manufacturers a comprehensive range of cable tray systems and solutions including cable ladder, perforated tray, channel tray and metal

Wire Trays :: 6000 articles for cable routing in stock. No ...

Thanks to the E-90 certification and the generous support spacing, the system is ideal for extensive installation projects. Sophisticated accessories and fast, uncomplicated processing offer maximum

MAVIL Cable trays | Gewiss

Cable trays are the backbone of any electrical system. GEWISS and Mavil offer an innovative range of steel cable trays, thanks also to latest generation finishings

Ebo Systems

With over 60 years of expertise and innovation, the company has built a strong reputation in the field of cable and conduit management. The exceptional quality

Cable Tray In Switzerland

Thanks to innovation and improved technology, we have evolved into a one-stop shop for Cable Tray manufacturers. Our highly educated expert closely monitors every aspect of manufacturing and

SWIFTS CABLE TRAY

With the new Swiftclip, lengths and fi ttings of Swifts cable tray can be fi tted without the use of specialist tools – making it even faster, safer and easier to fi t.

Types of Cable Trays – Advantages, Applications and Sizes

Explore the types of cable trays, their advantages, applications, and standard sizes. Learn how they improve cable management and support various industries.

Swifts cable tray technical guide

Supplied singly without fasteners Support horizontal runs of lightly loaded tray up to 1 mm wide from oerhead structures se 1 threaded rod For technical information, p. 96

Cable Trays | Wibe group

The Wibe cable tray system is another part of our complete cable routing offering for power, data, and control cables.

One-piece tray
